

Application form for International Warsaw Invention Show

Title of the invention* (character limit 200)	
This invention is related to chemistry. I submit the participation of this invention to World Competition of Chemical Inventions.* (yes/no)	
Object of the invention* Technology Product Process Device Computer program	
Select a category* Ecology, Environmental protection Mechanics and engineering Building engineering Electricity and Power engineering Electronic and IT Car industry Metallurgy Agriculture and food industry Chemical industry Textile industry Medicine and biotechnology	
Authors*	
Full name of Author(s)*	
E-mail*	
Phone Number*	
Description*	
Short description* (character limit 500)	
Long description (character limit 2000)	
Additional files*	
Poster/ image/ drawing/ description/ presentation	
File name	
File description	
Patent information (optional)	
Patent/patent application	
What is innovation	
Impact on ecology (impact on energy reduction, impact on dangerous substances emission reductions)	
Impact on work and safety (impact on improving work safety/ impact on the improvement of work comfort/impact on the improvement of work organization)	
Impact on human	

(effect on the improvement of the function of the human body/ impact on the improvement of beauty/ impact on human development)
